Work Experience

May 2026 / June 2026 — **KVK Technical Service (Istanbul Anatolian Side)**

Maintenance & Repair Technician

- Handled technical service processes for modem devices belonging to an internet service provider operating on a national scale.
- Performed computer-assisted diagnostics (troubleshooting), physical cleaning, functional checks, and maintenance/repair procedures for defective devices.

Reason for Leaving: Education

September 2025 / May 2026 — **Kodpera Computer Software Systems (Istanbul Anatolian Side)**

Founder / Computer Programmer

- Conducted web and mobile application development activities for software and artificial intelligence-focused solutions developed independently.
- Performed website and application setup, development, and management using WordPress, cPanel, PHP, MongoDB, and MERN infrastructures.
- Worked on mobile application design and development using Flutter and Dart.
- Managed web application installation, technical administration, domain/hosting configuration, and integration processes.
- Configured Google services, Google Business Profile, corporate email, and platform integrations.

March 2023 / September 2023 — **Green Park Hotels (Istanbul Anatolian Side)**

IT Support Staff

- Supported the installation, maintenance, and repair processes of the hotel chain's hardware and software infrastructure.
- Ensured the daily operation of user computers, printers, IP phones, and POS systems.
- Used Windows Server, Active Directory, DHCP, and DNS at a basic level.
- Contributed to the management of guest and staff network infrastructures and network security.
- Supported the maintenance, repair, and continuity of CCTV systems and televisions.
- Provided technical support to ensure the smooth operation of hotel reservation applications such as Elektra.
- Provided user support by responding to IT requests from different hotels.

Education

Associate Degree (September 2026) — Anadolu University / Open Education Faculty / Computer Programming
